HOW TO WITHDRAW

- 1** Copy your **USDT** Wallet address
- 2** Select **BEP20** network only
- 3** Enter amount
Min: 5 USDT | Max: 10,000 USDT
- 4** Fee: **1%** + 1 USDT fixed
- 5** Review details & submit request

SECURITY & SAFETY GUIDELINES

01 Use BEP20 Network Only

Always select USDT (BEP20 – BNB Smart Chain) when processing a withdrawal. Choosing the wrong network

02 (such as ERC20 or TRC20) may result in permanent loss of funds, which cannot be recovered.

Double-Check Wallet Address

03 Carefully verify your wallet address before submitting your request. Even a single incorrect character can send funds to the wrong address permanently.

Verify Fee Deduction

Each withdrawal includes a 1% processing fee plus a 1 USDT fixed charge. Please review the total deduction before confirming your withdrawal.

HOW TO GET STARTED

>> REGISTER ACCOUNT

Sign up with your email and create a secure password to access your personal dashboard.

>> DEPOSIT FUNDS

Add USDT (BEP20) to your account and ensure the correct network is selected.

>> CHOOSE YOUR PLAN

Select your preferred investment amount and activate the plan to start earning daily returns.

>> WITHDRAW EARNINGS

Track your profits and request withdrawals anytime directly to your BEP20 wallet.

WHY INVESTORS CHOOSE ARBITTRADE

AI-Driven Arbitrage Signals

AI scans multiple crypto exchanges in real time to identify price gaps and execute automated trades efficiently.

Secure Smart Contract Execution

Smart contracts handle transactions automatically, ensuring security, transparency, and reliable system operations.

Transparent Ledger System

Blockchain records provide clear, trackable, and verifiable transaction data for enhanced trust and accountability.

Consistent Daily Growth

The structured return model is designed to generate steady daily earnings within the plan limits.

Passive & Rewarding Network Income

Multi-level referral commissions allow investors to earn additional income through team growth and expansion.

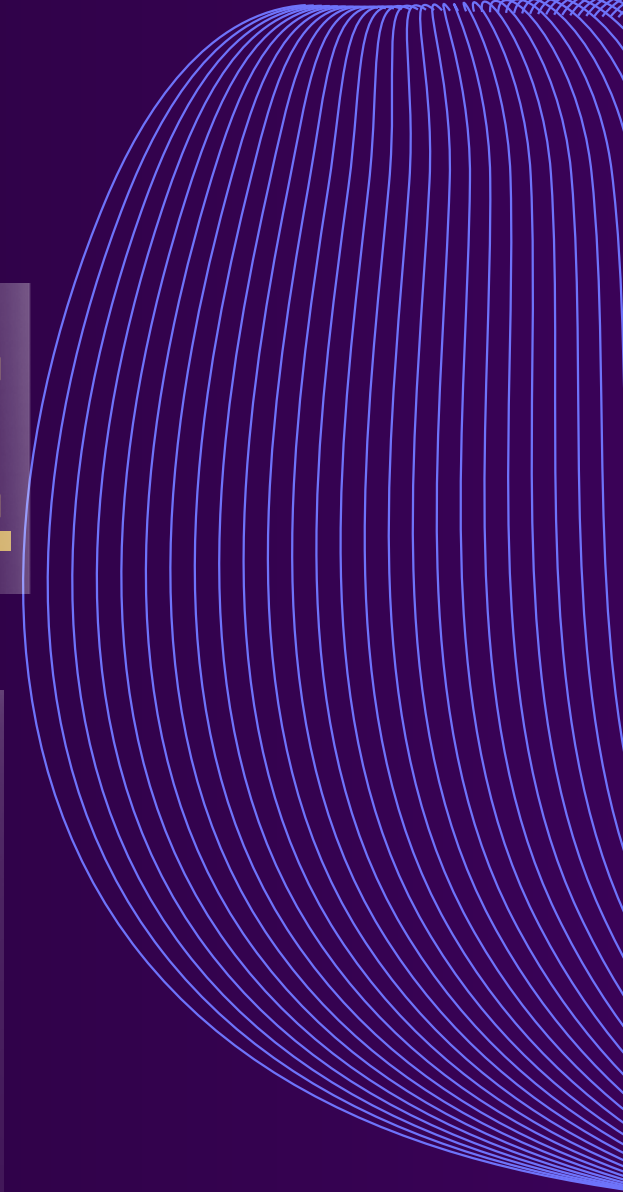

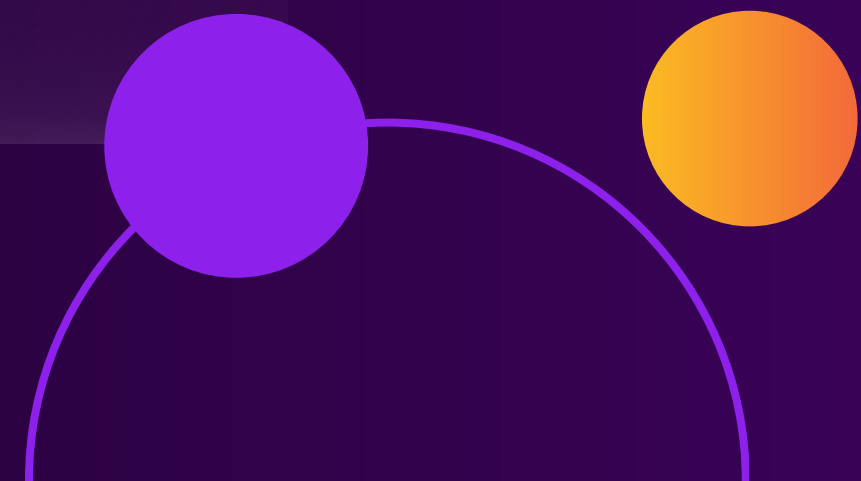

TECHNOLOGY & INFRASTRUCTURE

The platform integrates AI-driven trading systems with secure smart contracts on the BNB Smart Chain, enabling automated, transparent, and efficient processing of investments and withdrawals. Through real-time data analysis and algorithmic execution, it identifies arbitrage opportunities across multiple exchanges with speed and precision.

This technology-focused infrastructure reduces manual intervention, enhances operational accuracy, and ensures secure transactions through blockchain verification—strengthening reliability, scalability, and overall performance.

Core Technology:

- AI-based market scanning
- Smart contract automation
- Blockchain-verified transactions
- Secure digital wallet integration

RISK MANAGEMENT & STABILITY MODEL

MARKET-NEUTRAL EXECUTION

Trades are executed based on price gaps between exchanges, reducing dependency on overall market direction.

CONTROLLED RETURN STRUCTURE

Trades are executed based on price gaps between exchanges, reducing dependency on overall market direction.

AUTOMATED TRADE MONITORING

AI continuously scans and manages trades in real time to reduce manual errors and improve response speed.

Automated Trade Monitoring

Transactions and distributions are processed automatically, minimizing operational manipulation risks.

CONCLUSION & REFLECTION

Building Smarter Financial Opportunities

ARBITTRADE combines AI-powered crypto arbitrage, smart contract automation, and blockchain transparency to create a structured and scalable earning ecosystem. With a clearly defined investment model, automated withdrawal system, and a multi-level networking structure, the platform is designed to deliver consistent performance and long-term growth potential.

By leveraging real-time market analysis and advanced technology, ARBITTRADE minimizes manual intervention while maximizing operational efficiency. The integration of blockchain ensures transparency, security, and verifiable transaction records, building confidence among participants.

Whether focused on individual investment returns or expanding through network-based income, ARBITTRADE provides a modern, data-driven financial model built for sustainability, accessibility, and global participation.

Smart Technology. Structured Growth. Sustainable Opportunity.
